Project Description
This project consists of a 2 mile, 24-inch transmission force main which begins at the South Gate Master Pump Station, follows Hyde Park Drive to Brookhaven Drive, onto Sea View Street crossing Beneva Road and then north to Bahia Vista Street and continuing east to the McIntosh Road and Bahia Vista Street intersection. The force main is planned to be constructed in the County’s right-of-way and under the south road lane of Bahia Vista Street. Roadway resurfacing will be integrated with the project to ensure safety to the traveling public and coordinated roadways.

Project Progress/Status
Design is 100% complete and final easement acquisitions have been obtained. A public meeting was held with the surrounding residential communities and businesses on August 8, 2019, from 5:30 p.m.—7 p.m. at Sarasota Community Church, located at 4041 Bahia Vista Street. Invitations were mailed to neighboring communities and businesses at the end of July, 2019.

The project began advertising for bids on February 26, 2020 and scheduled bid opening was April 29, 2020.
