20 Ways to Use Water Wisely

- Sweep it Away. Use a broom, not the hose to clean the sidewalks.
- Slow the Flow. Install a water saving showerhead.
- Be a Drip! Drip systems pinpoint water to roots.
- Quick Shower. Keep showers under 5 minutes.
- Chill Out. Cool drinking water in the refrigerator; don’t run the tap.
- Keep Off the Sidewalk. Water your lawn, not the pavement!
- Use Your Head. Flush only when necessary. Don’t use toilet as a garbage can.
- Top it Off. Wash only full loads of dishes and clothes.
- Mulch & Save. Minimize evaporation with organic mulch.
- Double Duty. Use old water from the fish tank to fertilize plants.
- Save the Rain. Store it for garden watering.
- Hot Stuff. Insulate hot water heaters and pipes to save water and energy.
- Shower Power. A bucket in the shower can save water for cleanups.
- Stop, Look & Listen. Check pipes, faucets and toilets for leaks.
- Fix Your Leaks. A pinhole leak wastes up to 170 gallons a day.
- Don’t Run. Turn off faucets while brushing teeth or shaving.
- Toss it. Don’t use the garbage disposal. Use the garbage or compost.
- Drip Drive. Wash cars on grassy areas not on driveway.
- Save Time. Check irrigation timers for proper settings.
- Be Number One. Conservation starts with YOU.
