

WATER QUALITY SUMMIT

Stephen Suau is a professional engineer with more than 35 years of experience in both the public and private sectors in southwest Florida. He is currently principal of Progressive Water Resources, LLC. Mr. Suau formerly served as executive director of Sarasota County's Planning and Development Business Center as well as the director of Sarasota County's stormwater program.

Mr. Suau has a bachelor's degree in civil engineering from the University of Illinois and a master's degree in engineering administration from Bradley University. He lives in Sarasota and has served as co-chair of the Sarasota County Environmentally Sensitive Lands Advisory Committee, chair of the Sarasota County Stormwater Environmental Utility Advisory Committee, and vice-chair of the Myakka River Planning Advisory Committee. He also served as the Southwest Florida area

representative on the Technical Advisory Committee for the proposed state stormwater rule and is a member of the Technical Advisory Committee for the Charlotte Harbor National Estuary Program.

He has assisted in envisioning and providing technical guidance on regional watershed restoration projects such as the Celery Fields, Dona Bay and most recently Tatum Sawgrass.
