FILED FOR THE RECORD

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF SARASOTA COUNTY, FLORIDA that:

SECTION 1. FINDINGS.

Findings of fact.

- (a) Pursuant to Section 125.01(1)(q), Florida Statutes and Sarasota County’s constitutional home rule authority, to the extent not inconsistent with general or special law, the Board may establish municipal service taxing units (MSTU’s) and municipal service benefit units (MSBU’s) within which may be provided beach erosion control and other essential facilities and municipal services from funds derived from service charges, special assessments, or taxes within that unit.
- (b) Section 125.01, Florida Statutes, empowers the County to levy and collect taxes or special assessments within an MSTU or MSBU, respectively; and Section 125.01(2), Florida Statutes, provides that the Board shall be the governing body of any MSTU or MSBU.
- (c) Chapter 1 of *The Sarasota County Comprehensive Plan* incorporates policies and goals for the enhancement of access and use of the beaches within the unincorporated areas of the County, for the protection against flooding and storm damage, for enhancement of the natural environment and the improvement of the quality of life in Sarasota County, and for the enhancement of the use and enjoyment of properties.

- (d) Pursuant to the statewide beach management mandate set forth in Chapter 161, Florida Statutes, the Florida Department of Environmental Protection ("FDEP") has conducted surveys and assembled data to determine which shoreline sections of Florida beaches are "critically eroded shoreline", as that term is defined in Rule 62B-36.002(5), Florida Administrative Code.
- (e) In its *Strategic Beach Management Plan* dated October 2, 2000, as referenced in *The Sarasota/Charlotte County Beach Restoration Study* dated July 22, 2003, the FDEP identified the Gulf shoreline encompassed within the District as "critically eroded." The designation persists in the FDEP report *Critically Eroded Beaches in Florida* dated July 2020.
- (f) The Manasota Key Beach Nourishment Project (the "Project") was authorized by the Board of County Commissioners on July 9, 2019, to provide a maintenance nourishment to the Gulf shoreline within the District with the goal of restoring the intended level of storm protection within the District's boundaries.
- (g) Construction of the Manasota Key Beach Restoration Project was completed in April 2020.
- (h) On November 4, 2020, the Board of County Commissioners adopted Ordinance No. 2020-057, creating Article XXIV of Chapter 110 of the County Code, Manasota Key Beach Restoration District to partially fund Project Costs within the boundaries of the District.
- (i) On December 9, 2020, the Board adopted Resolution No. 2020-281, declaring Notice of Intent to use the uniform method for the levy, collection, and enforcement of non-ad valorem assessments within the Manasota Key Beach Restoration Project District.
- (j) On June 8, 2021, the Board adopted Resolution No. 2021-093, the Initial Assessment Rate Resolution, establishing the assessment methodology for a levy of non-ad valorem assessments and the not-to-exceed annual assessments for the Manasota Key Beach Restoration District, District I051, which Initial Rate Resolution is hereby ratified and confirmed.
- (k) Pursuant to the requirements of Section 197.3632, Florida Statutes, the notice of public hearing for the adoption of this Final Rate Resolution and the approval of the Assessment Roll has been published and mailed to each property owner proposed to be assessed, notifying each such property owner of the opportunity to be heard. The proof of publication of the notice of public hearing and an affidavit of mailing are attached hereto as Exhibits C and D, respectively.

-
-
- (l) The properties located within the District as listed in Exhibit A, will specially benefit because of the Project, by way of example and not limitation, protection against flooding and storm damage and enhanced access and use of the beach, thereby enhancing and/or preventing devaluation of property values.
 - (m) The Property Assessments are fairly apportioned among the specially benefitting properties and do not exceed the value of the benefit that each Assessed Property received as a result of the Project.
 - (n) The County is contributing funding directly to the Project that is more than the proportionate share of the publicly owned lands within the Project rather than including the public lands within the assessment District.

SECTION 2. AUTHORITY. This Resolution is adopted pursuant to Sarasota County Ordinance No. 2020-057, Chapters 125 and 197, Florida Statutes, the Sarasota County Charter, and other applicable provisions of law.

Derivation of Shoreline Length

The project design and construction are based upon the mean highwater line (MHWL) located by Coastal Engineering Consultants in May 2019.

The MHWL was adopted by the State as the Erosion Control Line (ECL) for those Gulf-front parcels receiving a Direct Nearshore Benefit. It represents the official land boundary of these parcels.

The May 2019 MHWL was used as a formally surveyed location for the purpose of establishing a measurable shoreline for those Gulf-front parcels receiving an Indirect Nearshore Benefit.

County GIS staff derived the shoreline length of each Gulf-front parcel by projecting the side lot lines of each parcel to the MHWL and measuring the length between the intersecting points.

Figure 1: Shaded area depicts the assessment district limits

The purpose of the public hearing is to consider the adoption of a Resolution establishing the final non-ad valorem assessment rates to be levied by Sarasota County, Florida pursuant to Section 197.3632, Florida Statutes. The assessment will be collected by the Sarasota County Tax Collector pursuant to the tax bill collection method, commencing in November 2021. The Sarasota County Board of County Commissioners is adopting a non-ad valorem assessment for a period of more than one year to fund beach restoration within the Manasota Key Beach Restoration District. This non ad valorem assessment is being levied for the first time and will continue each fiscal thereafter for seven (7) years.

The assessment rate schedule, described as Special Benefit Classifications, is as follows:

Recreation Benefit – assessed at \$481.80 per parcel per year, and applied to all parcels with the District as a result of the special benefit to the property within the MSBU district boundary due to the property's proximity to the expanded and maintained beach area available for public recreation.

Direct Nearshore Benefit – assessed at \$48.66 per linear foot of Gulf of Mexico shoreline per year, and applied in addition to the Recreation Benefit to those Gulf-front properties that had sand directly placed onto and adjacent to their respective properties and are receiving a special benefit from the beach restoration Project.

Indirect Nearshore Benefit – assessed at \$17.27 per linear foot of Gulf of Mexico shoreline per year, and applied in addition to the Recreation Benefit to those Gulf-front properties that did not have sand placed directly onto and adjacent to their respective property, but that are still receiving a special benefit from the beach restoration Project.

All interested parties are invited to appear at the public hearing to be heard and to submit relevant evidence regarding the use of the uniform ad valorem method of collecting such non-ad valorem assessments. A complete draft of the proposed resolution is available during normal business hours in the Environmental Protection Division at 1001 Sarasota Center Blvd., Sarasota, Florida. Supporting documents will be available the Thursday prior to the public hearing at www.scgov.net, Meetings and Agendas (Meetings on Demand) to view or download.
