Project Description

Engineering and construction services for the resurfacing of Englewood Isles and other South County roads. The project includes milling and paving of existing roadways, pavement striping, signage, ADA-compliant modifications, base repairs, and the installation of traffic signal detection equipment.

Project Progress/Status

Milling and paving activities have been completed on the project and substantial completion was granted on March 10, 2026. Contractor is working on punch list activities including pavement striping on completed roads and isolated repairs.
