### Project Description

The 17th Street Athletic Complex occupies 95 acres on the eastern part of the existing 17th Street Park complex, encompassing the utilities site located to the east. Starting in the spring of 2025, the project will commence with the replacement of current athletic facilities and the construction of additional ones. The park will feature eight youth softball fields, including a Championship field, four rectangular fields suitable for soccer, football, and lacrosse, as well as three fields dedicated to adult softball. Supporting amenities will encompass restrooms, concession stands, shade structures, meeting rooms, maintenance facilities, press box and grandstands at the Championship field.

### Project Progress/Status

The Construction Manager is fully mobilized on site, and work is underway across the project area. Current activities include ball field construction, park structures and grandstands, underground utilities and sidewalks. Wetlands mitigation is also under way. The eastern portion of the park is closed to the public during construction, through the fall of 2026. However, the dog park and adult softball fields on the west side remain open. For your safety, please use extra caution near the entrances along 17th Street.

**COMMON CENTS**  
Your penny at **Work.**
