Project Description

This project is a component of Sarasota County's comprehensive roadway resurfacing and neighborhood improvement initiative. The scope of work includes milling and resurfacing existing roadways, pavement striping, ADA-compliant improvements, and associated base repairs.

Project Progress/Status

The concrete/ADA enhancements are complete throughout the project. Milling and Resurfacing is complete in the Sorrento East Development east of US41 and has moved to the west side of US41 to Sorrento Drive. Upcoming neighborhoods are Mallard Marsh Dr. Striping crews are working throughout the project. Notices have been provided to residents prior to construction. Please use caution while passing through work zones.
